is unable to explain on what information the date of birth was entered as 1865 in the Schedule of establishment for 1901-02 as the same was prepared by his predecessor, you have made further investigation in the matter.

It is observed that though the date of birth given in the Service Register is 15-1-67 yet the age of the incumbent on the date of entry into service (23.10.87) is stated the 23 years 2 months & 16 days which would bring his date of birth to be August 1864. The entries in the Registers are irreconcilable.
